ROE 12 Schools Directory Makes a Comeback

After an absence of about five years, the *ROE 12 Schools Directory* has resumed publication. Distribution of this annually-updated resource was suspended due to the excessive cost. Technological advancements now make it possible to collect, compile, and distribute this helpful directory to those we serve in an economical manner. We are now utilizing a digital format, which allows us to keep the listings constantly updated (as opposed to annually) while making it easily accessible.

The directory can be found on the [General Information Page](#) of our [website](#) (in the "Who We Serve" box), as well as on our app, [myROE12](#). The directory is posted as a pdf file that is easily downloadable, should a paper copy be desired.

Illinois Transitions From ACT to SAT
The Illinois State Board of Education has announced its plans to provide the SAT as the state-funded college entrance exam to all 11th graders. Through this partnership with the College Board, Illinois educators will benefit from an assessment that is not only aligned to state standards, but provides more information than ever before about a student's readiness. Additionally, students will be able to directly connect for free to world-class, personalized online test practice through Khan Academy. Upcoming SAT workshops will be held throughout the state which will provide an overview of the assessments and resources to help administrators, counselors, and teachers prepare for the SAT. Learn more about the SAT and registration for a workshop near you on our website.

THE TRAIL
PROFESSIONAL LEARNING COLLABORATIVE

Author of the new book "Grading from the Inside Out"

Bringing Accuracy to Student Assessment Using Strong Grading Practices
Featuring Author and Speaker
Tom Schimmer

Critical to any assessment system is establishing a balanced, seamless relationship between formative and summative assessment. In this session, participants will learn how meaningful assessment experiences and real-time instructional maneuvers go hand-in-hand to drive student growth. Participants will also learn how to grade from the "inside out" to ensure that grades accurately reflect student proficiency. The topics of reassessment, homework, and accountability will be explored.

Tom Schimmer, author of the new book *Grading From The Inside Out: Bringing Accuracy to Student Assessment through a Standards-Based Mindset*, is an intriguing speaker who connects assessment expertise, feelings with effective teaching practices. Tom's clear, direct, and non-threatening style have helped guide and shape educators' beliefs about assessment and grading practice across the United States and Canada. Dr. Schimmer presented on last year's Trail and has become a very popular and respected speaker across Illinois.
