Building a Resilience Program for Students with Adverse Childhood Experiences

Presented by Dr. Don Parker

This professional development workshop offers coping strategies for at-risk youth facing the combined elements of academic performance, high achievement standards, media messages, peer pressure, and family tension. As a result of participating in this hands on workshop participants will learn how to:

- *Recognize risk factors and employ protective factors for students at-risk*
- *Apply effective methods to teach personal resilience to students*
- *Foster academic resilience and emotional intelligence to increase student achievement*
- *Teach students to demonstrate resiliency after making a mistake or an unfortunate situation*
