# Assistive Technology with Chrome, Chromebooks, and Google Apps

**September 11, 2024**

12:30–2:00 PM

This professional learning session is designed to equip educators with the knowledge and skills to utilize the Chromebook accessibility features. Participants will learn how to navigate settings on the device as well as in the Chrome browser to ensure they are equipped with the tools necessary to assist students with disabilities. Accessibility menus within the basic Google Apps for Education as well as various web extensions will be explored.
